Life Progressions

We are born into an existing progression of change, through which we evolve and grow during our lifetime. Being conscious of our position in this succession of change helps us more clearly define and understand ourselves. An awareness of our current life situation relative to a larger, evolving chain of events helps us negotiate the challenges that confront us in our daily lives.

This Life Progression report (based on the technique of Secondary progressions) describes experiences and understandings relative to particular aspects, thus depicting the effect of these planetary aspects on an individual. The report covers a period of at least one year. The time period covered by the text varies according to the nature of the astrological event associated with each paragraph. A paragraph referring to a progressed Moon will cover a much shorter period than one referring to the zodiacal sign on a progressed house cusp. This report is intended to enhance the natal chart, not to replace it. The two go hand-in-hand. The progressed chart brings to fruition the promises of the natal chart.

<p style="text-align: center;">Report for Antonio Banderas Your Life Progressions for Mar 01, 2002</p>
--

Taurus on the First Cusp

Impulsive tendencies are slowly diminishing. You are becoming more persistent, patient, and reserved. There is the capacity to work long and hard toward a personal goal. You are more inclined to listen to the suggestions and ideas of others and even adopt some of their ideas if they appear sound and reasonable. There is a newfound sense of responsibility that binds you into completing whatever projects you undertake. Money and material possessions will play an important role in your life at this time. You like the ease and personal comforts they provide. This is the time for socializing and meeting influential people who can assist you in your financial endeavors. Major changes may be difficult to accept, as there is less adaptability to new situations. Guard your throat against variable weather conditions. The position of your progressed ascendant ruler, Venus, can provide additional insight into new circumstances and motivational influences touching your life at this time.

Gemini on the Second Cusp

You can look forward to several outlets of financial gain. Perhaps two jobs, one full-time and the other part-time, or a regular job along with an income dwelling from which you are paid rent. At some point during this trend, you will receive checks through the mail or be in a situation where you have to open mail and remove checks. You may have more than one checking or savings account. The communication system, lecturing, tape recorders, books, or short trips may enhance monetary gain. Your mind is always active with new ideas for an increase of income. Make it a rule not to sign important papers while under duress or nervous tension. Brothers or sisters may be a source of financial or material gain or loss.

Mars in Cancer

This placement of progressed Mars in the sensitive sign of Cancer is desirous of peace and harmony in the domestic sphere. Sometimes this may be difficult to achieve, as stress or disputes increase the chances for emotional outbursts. This is an excellent placement for enterprising public concerns or involvement with real estate. Guard against overextension of credit which may hinder the purchase of property or a home. You may have to take the lead and handle major decisions where family matters are concerned. It is possible that a parent may require surgery or have an accident during this trend. Men who touch upon your life at this time are likely to be very sensitive, emotional, domestic, and no doubt will own property.

Mars in the Second House

Financial success depends upon the type of personal effort you apply to the accumulation of monetary gains. On the whole you should prosper, as you have the ability for innovative ideas in new lines of endeavor. When extravagant tendencies hit you from time to time (creating

difficulties with finances) you can come up with enterprising methods for new avenues of monetary increase. Circumstances in life are likely to create a situation where you may have to take the lead in handling personal finances. You may be placed in a position where you may have to make important monetary decisions yourself. If you have a business, it will be difficult to avoid spending lavishly on equipment and office supplies. A young man or an assertive type of individual may come up with challenging offers and new suggestions.

Cancer on the Third Cusp

An imaginative, emotional, and reserved mentality prevails. Criticism from others, even when offered in the most constructive manner, can leave you feeling resentful. You may just withdraw and later rehash in your mind what you should have said in retaliation. Expect fluctuation in moods and temperament to occur from time to time. Circumstances during this trend may increase mental activity, paperwork, or communications to be handled from the home base. Brothers and sisters may look to you for maternal/paternal support. You may have to come to terms with a sibling in connection with parental affairs.

Cancer on the Fourth Cusp

You can gain deep emotional satisfaction from your home life and dedication to family members. The basic root of inner security lies in the owning of a home. There is something warm and satisfying in the knowledge that you have a roof over your head and that one day it will be free and clear of mortgage payments. You can be very sensitive and sympathetic to the needs of your family members. This trend is excellent for strengthening emotional bonds with a parent.

Leo on the Fifth Cusp

This sign strengthens the emotions and passions in love relationships. They are either younger in age or give the appearance of youth. You are attracted to those of regal bearing or who project an air of class. Seek hobbies that can help you radiate outwardly in some dramatic fashion. Children will demand much of your time and energy. You can be too generous in wanting to give them the best. Sometimes pride prevents you from accepting good sound advice in connection with your children. One of your children may have creative or artistic ability. Good investments involve gold, nightclubs, sporting goods, children's games, and apparel.

Uranus in the Fifth House

Take stock of your innovative hobbies and ideas that could possibly lead to a profitable invention. New outlets for romantic interests can come from joining various clubs and organizations or taking unique classes in computer programming or astrology. Invitations to social functions arrive unexpectedly and through the most unique set of circumstances. This is a good time to participate in sporting activities with close friends or to try something new and different such as karate or racquetball. Investments undergo fluctuation, altering from sudden gains to unexpected losses. There may be an attraction for odd and unusual places of amusement or entertainment. There may be the forming of unconventional love affairs, where one is either married or living together without benefit of a marriage contract. It will be difficult to maintain a normal routine existence, as your personal affairs can be disrupted unexpectedly through matters connected with children.

Pluto in the Fifth House

Look inwardly and try to evaluate your creative urges and innovative hobbies. It may be possible to turn one into a money-making project. Intellectual pursuits through the written or spoken word should be promoted at this time. You have a flamboyant and colorful manner of self-expression that can easily sway the masses. Romantic involvements are possible with someone who is determined to change your habits, lifestyle, or mannerisms. You may "chafe at the bit" when their controlling and dictatorial attitude becomes suppressive. This is not the time to co-sign for a loan or lend money to romantic partners or children. Bitter resentments can develop when one is approached for repayment. This placement is associated with changing conditions or even reversal regarding the attitude of lovers or children.

Virgo on the Sixth Cusp

Painstaking details and record-keeping may become an important part of your job. You are very accurate and thorough in the services you provide, but sometimes you go overboard, giving others more than is asked of you. Take a good look at your dietary program. Exercise may prove beneficial, as may vitamins and health foods. Avoid stressful situations that may react upon intestinal upsets.

Moon in Libra

Accept social invitations that may open the door to new relationships, possibly leading to marriage or business partnerships. There is a strong desire for love and affection -- and in some cases -- a dependency on the partner. Be selective, however, in your choice of companions. While some may be beneficial to your well being, others may prove detrimental by drawing you into an undesirable situation where the other party may be married or undergoing a difficult divorce. If you are already married, this placement will affect your present relationship either by enhancing and strengthening or by causing a wedge and possible separation. For those happily married, it is best not to tempt fate by promoting close ties with the opposite sex. Dealings with an attorney, physician, or counselor are possible during this trend. Drink plenty of fluids to maintain balance within the system and avoid the possibility of kidney problems. Other vulnerable areas of health can involve the veins or ovaries. Note the house position of your progressed Moon to provide additional insight in connection with marriage or business partnerships.

Moon in the Sixth House

This is a good time to get a thorough health check-up. Promote healthful eating habits, and a sensible diet if you are overweight and promote healthful eating habits. Give due consideration to vitamins and health foods as a supplement, if you feel they can be of benefit. Evaluate your job situation from an objective standpoint; then take the necessary steps toward positive changes if you are not satisfied with your present employment. Make it a point to take additional study courses or learn new technical skills that will increase your opportunities for advancement. The affairs of aunts and uncles or domestic pets may require personal attention. Do not permit co-workers or close ties to work on your emotional sensitivity and upset your nervous system. Check the sign position of your progressed Moon for more insight into health and work factors.

Moon Semisquare Sun (Prg-Nat) Feb 21, 2002

Approximately three and one-half years ago, you may have undertaken a new start or direction in life. Some minor setback (an emotional crisis or other source of irritation) may have you wondering if you made the right decision. The emotions and your sense of pride may be hurt during this three-month trend, from rejection or what you may feel is undue criticism from others. This is a time to hold back and develop a "wait and see" attitude rather than push ahead against temporary prevailing obstacles.

Moon Trine Mars (Prg-Nat) May 2, 2002

The following three months can be a highly productive period if your energy flow is properly directed. Make positive use of all opportunities that come your way. Be ambitious and enterprising, and push personal affairs toward new ventures and undertakings. Be assertive in changing your life-style or environment if you feel hindered in your present situation. This is a good time to travel, purchase a new car, or tackle projects that require extra energy.

Moon Semisquare Uranus (Prg-Nat) May 17, 2002

This is a time in life when one becomes bored with daily routines and desires to run off into new horizons.

Moon Opposition Moon (Prg-Nat) Jun 29, 2002

You may be faced with an important decision in which a compromise may be the only solution. Be realistic in your goals and objectives, and accept the fact that changes may be necessary to achieve them. You may have to discard old familiar habits, conditions, or relationships that are outdated or of little value.

Moon Square Saturn (Prg-Prg) Oct 21, 2002

Delays and hindrances during the next three months are likely to hold you back from getting satisfactory results through personal, financial, or business affairs. This can be a critical period in connection with a grandparent or other older members of the family. They may be a source for concern or added responsibility. You may withdraw from social contact due to an inner feeling of rejection or lack of emotional response. These trends do not favor new undertakings or making changes of a personal nature. There may be a vulnerability to frequent colds, chills, aching knees or bones, and possible dental problems. Your vitality may be low, so get plenty of rest and eat lots of hot foods.

There may be a vulnerability to frequent colds, chills, aching knees or bones, and possible dental problems. Your vitality may be low, so get plenty of rest and eat lots of hot foods.

Moon Sextile Midheaven (Prg-Nat) Feb 15, 2003

This is a three-month period in which one should take advantage of all opportunities for advancement and positive career changes. You have great rapport with bosses, those in authority, and the general public. This is a good time to contact those who can help you rise to a higher social status. You may receive an award or recognition for a personal achievement, possibly get your name or photo in the local newspaper, or appear on television or radio.

Moon Conjunction Mercury (Prg-Prg) Feb 23, 2003

A very active and busy period, involving a variety of interests that will make it difficult to concentrate on one particular subject. People, phone calls, and correspondence will make inroads on your time and result in wasted energy, unless you stand firm on your priorities. This can be a highly productive time for buying & selling, writing, studying, attending lectures, seminars, or speaking at conventions. Advance business interests and negotiate contracts. Changes may require adjustments to new routines. Take time out to visit brothers, sisters, aunts, uncles, and other close relatives. Accept new friends into your social circle, and do a bit of traveling. Take advantage of these few months to seek intellectual pursuits for mental improvement.

Moon Semisquare Venus (Prg-Nat) Mar 4, 2003

A few obstacles may lie in the path of romance and close ties. You may feel neglected and disappointed in the amount of emotional response you are receiving. Or you may experience difficulty in expressing your own affectional feelings toward another. These three months are not the best times for promoting new attachments, friendships, or acquaintances. Lack of emotional control may interfere with close relationships. You should also guard against overextending of personal finances, making unwise purchases, abusing the credit card, or lending money to unreliable individuals.

Moon Sextile Sun (Prg-Nat) Apr 13, 2003

You are in a positive state of mind, filled with optimism and a hopeful outlook. Your inspirational attitude is likely to draw admiration from others and increase your chances for social contacts, business advancement, or a new romance. Take advantage of all opportunities and channel them into constructive possibilities. You are on a roll, and should make the most of these three opportune months.

Moon Semisquare Pluto (Prg-Nat) Jun 10, 2003

Emotional outbursts may be unleashed against those whom you feel are trying either to

dominate you or to create changes that are upsetting to your environment. Although these changes may be necessary in the scheme of things, you may find it difficult adjusting to them. The altering of these conditions may result in separation from loved ones, and finding it hard to let go. It may be parents moving to a distant city, a child getting married, loss of an older member of the family, or a divorce. Whatever the circumstances, your domestic and emotional feelings will undergo an intense change.

Moon Sesquiquadrate Mars (Prg-Nat) Jun 21, 2003

Impulsive decisions or hasty actions can lead to possible accidents or quarrels with loved ones. Abrupt statements made at this time are likely to be cause for regret later. Don't push for important changes or take unnecessary risks. Work out this excessive energy through repairing, painting, or completion of difficult tasks. Be aware that certain risks are involved. Use caution in new undertakings or ventures.

Moon Sesquiquadrate Ascendant (Prg-Nat) Jul 3, 2003

Emotional and domestic difficulties, especially where women are concerned. They are likely to be a source of irritation or interference with personal plans. This could result in a break-up of close emotional ties -- perhaps a separation from a loved one or parent. If running for public office, it would be wise to seek the counsel of someone experienced in public relations. Your own image will not project as well as you would prefer. A PR person can help to smooth the rough edges.

Moon Sextile Uranus (Prg-Nat) Jul 5, 2003

You may be highly intuitive, inspirational, and inventive during this trend. Make the most of all unexpected opportunities that may come your way. Expand your horizons through new interest or studies, especially the technical or unusual kind such as electronics, computers, or astrology. New, magnetic, stimulating, and unconventional friends and associations will be made. Enlarge social contact by joining clubs and organizations. Expect sudden and drastic changes which may be disturbing at first, yet beneficial in many ways.

Moon Sextile Jupiter (Prg-Nat) Sep 17, 2003

Good fortune smiles at you through general prosperity or material gain. It is a good time to push personal and business affairs, and take advantage of new opportunities for future expansion. You may get a chance to travel or experience pleasurable contacts from those living in distant cities. Your positive outlook during this trend should bring you in touch with new friends or acquaintances and increase social contacts.

Moon Conjunction Venus (Prg-Prg) Oct 12, 2003

This should be a pleasurable three-month period in which everything goes well. You may be feeling rather content, peaceful, and happy. Social affairs are activated with baby showers, weddings, the theater, or just dining out with close friends. Your emotions and feelings are aroused and eager for new and lasting attachments. Opportunities are favored for meeting someone special, getting engaged, married, or receiving gifts and invitations. This type of energy is especially helpful for those in the mood for interior decorating, entertaining, having their hair styled, or purchasing new clothes. A fairly good period for finances, investments, and purchases in general.

Moon Sextile Jupiter (Prg-Prg) Oct 29, 2003

Good fortune smiles at you through general prosperity or material gain. It is a good time to push personal and business affairs, and take advantage of new opportunities for future expansion. You may get a chance to travel or experience pleasurable contacts from those living in distant cities. Your positive outlook during this trend should bring you in touch with new friends or acquaintances and increase social contacts.

Moon Square Midheaven (Prg-Prg) Oct 30, 2003

There is a possibility of undesirable changes in the domestic circle or through one's career. Emotional instability can push you into seeking an ultimatum from those you love the most. A new boss with whom you do not get along can cause emotional upsets. Affairs of grandparents or a parent may require your personal attention and concern. You may find yourself being drawn into the unpleasant task of resolving a family crisis. Parents can be quite demanding of your time and attention during this trend.

Sun in Virgo

As your progressed Sun enters the sign of Virgo, you will notice certain psychological changes. A reserved, tactful, and conservative nature is slowly replacing a dramatic and flamboyant flair. There is an inclination to conduct your personal affairs in solitude and with greater privacy. You are curious about people, and there is a deeper analytical judgment of human nature. Possible career changes may require increased assimilation and evaluation of facts and figures. You take great pride in these detailed and methodical tasks that would have bored you in the past. Success comes from good common-sense methods and practical handling of business affairs. You are becoming more precise and selective of the foods you eat. Diet, personal hygiene, and exercise may become a daily routine. Co-workers, aunts and uncles, and men of discriminative taste will affect your life at various times.

Sun in the Sixth House

You take great pride in methodical and organized handling of work-related details. To be a truly productive employee, you require praise and recognition of your efforts. You are terribly ambitious and will always strive to better yourself by being alert for new job openings and opportunities. One of your major objectives is to hold a position of authority where you are in a supervisory capacity over others. Your physical stamina may not be up to par. Frequent rest periods may help to alleviate these periodic bouts of lethargy. Pushing yourself beyond your capacity can open the door to possible health problems with the back, heart, or eyes. Male co-workers are more likely to be of help and assistance than females.

Sun Sextile Mercury (Prg-Nat) Dec 12, 2003

Favorable changes are indicated for business and personal affairs. An excellent time for attempting new studies, buying or selling, moving or traveling, and signing of contracts, or negotiations. Success is almost assured in new ventures, undertakings, or vocational changes. Make new contacts with those who can be of beneficial assistance. You may have enjoyable experiences or visits with brothers, sisters, and other close family ties. Make the most of opportunities that require the written or spoken word. You have a good sound logical mind at this time, and that enables you to handle detailed tasks with incredible ease.

Mercury in Libra

Your analytical and discriminative mentality is softened with a gracious warmth not in evidence before. As your Mercury progressing into the cooperative sign of Libra enhances your desire to work in unity with others, where formerly, you were content to work in self-induced isolation. In all probability, some new venture or pursuit is likely to draw you into the communication field. In this capacity, you may experience the exchange of ideas, thoughts, and views. It could range from teaching to public relations work. You may enter into a partnership connected with books, cassette or video tapes, lecturing, or teaching. The affairs of your marriage or business partner may require you to handle lots of paperwork or make frequent short trips. Siblings of your spouse or other close ties, and their affairs, may touch upon your life.

Mercury in the Sixth House

Others will recognize and respect your expertise and patience in handling detailed tasks. No matter what kind of work you do, whether it is in a specialized skill or as a lecturer, instructor, or office clerk, you have the knack of coming across with uncanny clarity and understanding. Jobs that offer a variety of tasks are more apt to hold your attention, for you have the tendency to get bored easily. Your present vocation may require additional training or studies to insure future advancements. Avoid becoming too concerned with details and perfection, which can take its toll on your health. Your state of mind can affect your physical condition, so always maintain a positive attitude and avoid undue worry and stress.

Mercury Sextile Midheaven (Prg-Nat) Dec 16, 2002

You are entering an active period for educational or learning pursuits, journeys, new enterprises, or changes in vocational interests. You would do well in public relations, teaching, lecturing, writing, or working for the government. You will have the ability to express yourself logically and intellectually, presenting the possibility of public contact through newspaper work,

radio, or television.

Mercury Semisquare Venus (Prg-Nat) May 14, 2003

You will have to exercise tact and diplomacy in everything you say or write. No matter how innocent your statements, there is the chance of being misunderstood. These misinterpretations can create havoc with close relationships, romance, domestic affairs, and partnerships. Avoid social gossips, and use care when signing important papers that could result in financial loss. A sister, female relative, and women in general, should be handled with kid gloves. They may be a source for concern or friction in everyday affairs.

Venus in Libra

As Venus progresses into the sign of Libra, you will find your social life increasing. Formerly you were content to remain a loner, but others are drawing you out of your self-imposed isolation. They are attracted to your new outgoing, genial, and companionable nature. You are developing an air of finesse, charm, and graciousness of manner. Discordant environments have always disturbed you in the past. Lately, you may find upsetting conditions even more intolerable, almost to the point of making you ill. This placement of Venus can lead to a possible engagement, marriage, or family increase. Partnerships or close unions can aid or hinder personal progress.

Venus in the Sixth House

Peace, serenity, and a harmonious atmosphere are required if you are to be productive in your line of work. There appears to be a popular demand for your talents and specialized skill. Co-workers may provide an outlet for social enjoyment and relaxation. On occasion, you may have to attend various functions in connection with your job. Your friendly, genial attitude will draw admiration from others and, on occasion, lead to an affectional relationship. Cooperative efforts or partnership arrangements are more to your liking as daily routine work appears burdensome when you have to tackle it alone. Make it a point to drink plenty of fluids to maintain balance in your system. Fluids also help in youthful skin appearance and eliminating possible kidney problems. Contacts with or through the affairs of women may have an affect on your job.

Venus Sextile Uranus (Prg-Prg) Nov 17, 2002

Latent original, creative, and inventive abilities may develop into moneymaking hobbies. Make the most of this trend by reviewing your unique talents and determining how you can expand upon them. This period has all the earmarks of a changing condition that is likely to produce a pleasant, altering state of affairs. There is a magnetic quality about you that is likely to draw unconventional -- yet exciting -- social and romantic opportunities. There is a chance of financial gain through artistic pursuits, romantic attachments and marriage, or business partnerships. You may be offered a public relations position, or one as social director for a club or organization, or for a company involved with group-related activities.

Venus Sextile Jupiter (Prg-Nat) Jan 18, 2003

This is a period in which all things tend to flow at a smooth pace. A happy, expansive outlook increases your chances for active social affairs. You can establish pleasant and harmonious relationships with in-laws and close family ties. Romantic attachments formed now

are more likely to have a lasting effect, and possibly lead to marriage. You will discover that people are more willing to assist you in business or financial dealings. There is the possibility of monetary gain through legal matters, travel, publications, partnerships, or foreigners.

Neptune in the Sixth House

You may be highly receptive to your surroundings at your place of work and regarding relationships with co-workers. Discordant environmental conditions play havoc with your emotions and sensitivity. Your intuitive and psychic impressions are valuable in detecting errors or mixed-up situations that can prevent loss of company time or products. When mishaps do occur, you may be used as a scapegoat through no fault of your own. This is not the time to confide in co-workers, who may in turn alter the information and use it to their advantage. You may work with individuals who are experiencing difficulties with their personal life, health, or mental state. They may try to use you as a "sounding board" to unburden their problems. Your psychic impressions and sympathetic nature can draw you into their complex affairs if you do not exercise self-control. An illness may be difficult to diagnose at first, but once detected it may be corrected through medication or change of diet. At some time, a prescriptive drug may react adversely upon your system. Your health can be greatly improved through proper application of meditation and relaxation therapy.

Scorpio on the Seventh Cusp

You are capable of giving your partner strong loyalty and devotion; however, you expect the same love and devotion in return. It is your partner's intense sexuality that really turns you on. It can also be a cause for suspicion, jealousy, and possessiveness. It is possible that your partner might gain through an insurance settlement, inheritance, alimony, or health benefits. You may limit dining out or entertainments as being too costly.

Sagittarius on the Eighth Cusp

It is possible during this trend that you may seek legal judgment against someone covered by an insurance company or seek legal damages from someone who does not have insurance coverage. The probability of a settlement in your behalf is excellent, for luck is on your side. You also have a good chance of gaining through raffles, lottery, football pools, and bingo, for you have the "luck of the Irish" with other people's money. Religious convictions may be very strong; thus you can be a moralist where sexual matters are concerned.

Jupiter in the Eighth House

You may have a talent for organizing large-scale projects. If applied in a resourceful manner, this talent can have its advantages and prove rather lucky in joint financial business dealings. This placement provides a protective influence and possible monetary gain through dealings with insurance agents, the I.R.S., lawsuits, religion, and published material. In some cases your travel expenses may be paid by an organization or the company with whom you are employed. There is a greater scope for financial or material gains through the resources of others (a possible inheritance, insurance settlement, or a lucky win with the lottery).

Capricorn on the Ninth Cusp

Travel will be less frequent than in the past, and more likely to be connected with work or to

visit a parent who may now live in a distant city. Personal projects for future growth and expansion may require many hours of working in isolation before you can achieve the success you desire. Your carefully laid plans and well-organized trips always seem to hit a frustrating snag. Either your plane is delayed and you have to wait hours for take-off or the matter connected with your travel did not go as well as you expected. Relax and don't be so uptight on these trips -- try to enjoy the company and the atmosphere.

Saturn in the Ninth House

You are straightforward and honest in your approach toward others. You have a keen sense of duty and are very conscious of your objectives, knowing full well their attainment may require patience, perseverance, and working in seclusion. The role of an instructor, either in college or adult education classes, may be in your future. You have tact, diplomacy, and know-how in dealing with mature individuals. Travel is likely to be connected with your vocation. On occasion, through a stroke of luck, you may be sent to the city of a distant relative, enabling you to combine business with family visits. Older people or those of political affiliation may prove to be more beneficial than others. Legal matters entered into at this time are likely to hit a snag, be delayed, or prove less rewarding than first anticipated. This placement is associated with concern or responsibilities in connection with in-laws or older relatives who reside at a distance.

Saturn Trine Ascendant (Prg-Prg) Dec 5, 2003

You are gaining good common sense and practical ability. You can be industrious and persevering, with plans and action that are well thought out. There could be some acquisition of property and possible gain through an inheritance. You will have the ability to overcome hardships and difficulties. You may discover that you really enjoy the company of friends and associates who are older, more serious, or of influential background.

Capricorn on the Tenth Cusp

You have developed a strong sense of responsibility in handling your work-related duties. There is the capacity to work long and hard, and in isolated conditions, should the position call for it. There is the possibility of having to work the evening or night shift. There may be contacts with older individuals or the city government in your field of occupation. The company might be old and well established with very few young employees. There is the possibility of working in a nursing home, for the Commission on Aging or with senior citizens.

Aquarius on the Eleventh Cusp

You work well with large groups of people and may volunteer your services to causes that help to benefit mankind. You are attracted to friends that are different and unconventional, and are willing to do crazy things at the spur of the moment. Clubs and organizations that deal with airplane modeling, computers, CB's, UFO's, or astrology would hold your interest more than others. This sign is often associated with step-children or a daughter or son-in-law who may have a child from a previous marriage or relationship.

Pisces on the Twelfth Cusp

Strong psychological influences can have a devastating effect if you do not maintain a positive outlook on life. There are many ways to temporarily escape from what appears to be a

hopeless situation -- music, guitar or organ lessons, dancing or art, fishing, photography, or swimming are excellent choices. Even leaping back into bed for a few hours of pleasurable daydreaming after the children go off to school can offer a positive respite. Or, take long walks in the woods, gaze at the clouds, watch the leaves dancing on the tree tops, and listen to the birds as they chirp a happy tune. You'll return to the hectic world feeling refreshed, at one with the universe, and once again able to cope with the problems of everyday stress. Avoid medication not prescribed by your physician. Avoid the temptation to overindulge in alcoholic beverages or mind-expanding drugs. You have excellent psychic and intuitive ability -- apply it toward positive situations.
