Your Planetary Day

While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.

You were born on a Saturday.

This is the day of Saturn, associated with the Greek Chronos, god of time and the scythe-carrying ruler of endings, limitation and boundaries — and therefore of form and solid objects. Saturn rules all that is tangible and material, most especially the mineral kingdom. Saturn's metal is lead; his colors, earth hues and dark shades like black and navy. As a planet, Saturn is the archetype of the elder who embodies rigidity, but also authority and substance. Traditionally, the sin of Saturn was covetousness; his virtue, prudence. In the Kabbalah, Saturn is ruled by Orphiel, angel of care and solicitude. On the Kabbalistic Tree of Life, Saturn is associated with Binah, one of the highest Sephiroth, which signifies the Great Mother, the principle of Form and of Understanding. "Saturday's child must work for a living." — *Harper's Weekly*, 1887.

About Personal Numerology

The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.

As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all-important work on ourselves.

In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If who we are wasn't acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a "turn-type."

For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.

Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people's expectations of us.

Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.

How Numerology Works. *Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.*

To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.

To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.

Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.

This said, let us now look first at your basic character and the major themes in your life.

Your Life Path

The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.

Your birthdate total is 9.

Your Life Path of 9 means that yours is a destiny on a universal level, where the aim is an expanded consciousness and capacity for human understanding. Develop any artistic talent you have as a means of communicating the universal truths you want to express. Keep yourself free to experience the many emotional contacts you will have. With your broad, unprejudiced philosophical outlook, you have the possibility of inspiring others and of rendering service to humanity.

What Motivates You in Life

We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Various known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.

The vowel total in your name is 9.

With 9 as a Motivation number, you thirst after knowledge and enjoy sharing it with others. Dedicated to that which is universal, you are the eternal student of life, always in search of better understanding. You have humanitarian ideals, and sincerely desire to improve life's conditions. You tend to react emotionally and romantically, and are as much in love with the idea of love as with a person. When help is needed, you are capable of considerable self-sacrifice.

Colors and gems have number vibrations, too. Your Motivation colors are all colors in the brightest hues. Your Motivation gem is the opal. Wear these when you want to relax and restore your energies.

More about Your Emotions and Motivations

The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.

The first vowel in your name is A.

“A” feels courageous and daring, and gives you the soul of a warrior. Often you do not look before you leap, impulsively getting yourself into more hot water than you'd like. But you have the dash and flair to extricate yourself no matter what. You like to be on the front line, and are not afraid to go out on a limb for your beliefs. Preferring to be the one in control, you do not take well to authority. You want to call the shots and go it alone, because you are often too impatient to wait for others.

The Impression You Give to Others

The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.

Your consonant total is 3.

Having the Impression number 3, you dream of being a very popular person: magnetically attractive, and even a sex symbol. You are the actor on center stage, the movie star, the life of the party, charming everyone with your wit. Since you are conscious of the image you project, only the latest and best in fashion will do. You may dream of the jet-set life or another glamorous lifestyle in which you are the star.

Your Impression color is yellow, and your Impression gem is the topaz. Wear these when you want to be sociable and enjoy the company of others.

The Way You Express Yourself

The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.

Your name total is 3.

The Expression number 3 signifies that you tend to be an outgoing, optimistic and ambitious person. Attractive and charming, you will make your way in life through social contacts. Socially adept and facile with words, you are a natural performer who can handle all kinds of people and situations. You also have an artistic flair. Your strong points are versatility; and the fact that you seldom let life get you down. You need, however, to watch out for a tendency to embellish the truth for effect.

When you want to be businesslike, try wearing yellow as your Expression color and the topaz as your Expression gem.

Careers Offering the Best Self-Expression

With 3 as your Expression number, consider these kinds of jobs:

The Boss: social director, organizer of charity drives or society functions.

On Stage: model, hostess, clergyman, TV or radio journalist, teacher, entertainer, lecturer, salesperson, promoter.

Service: beautician, interior decorator, cosmetician, druggist, social worker, doctor, lawyer, electrician.

Just You: fashion designer, artist, dressmaker, photographer, artisan, chemist, worker with animals.

Words: humorist, cartoonist, literary critic, novelist, linguist; worker in advertising, newspapers or magazines.

Best Bet: any job in communications or entertainment.

The Power You Can Achieve in Maturity

The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.

This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.

Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.

What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.

The total of your name and birthdate is 3.

A Power number of 3 signifies a life in pursuit of beauty, love, pleasure, and self-expression. Three is the archetype of the Performer. Talented, imaginative and with a genius for the spoken word, threes must have an outlet for their energy and creativity. Expressing themselves is a necessity. They love being in the spotlight and thrive on the attention they receive when they do something noteworthy.

Threes attract situations that demand vibrancy and cordiality. There is a restlessness in their nature and a need to remain occupied and involved. With their positive, optimistic outlook, these are the upbeat people who are sought after because of their joyful, fun-loving style. Good-natured, witty and the life of any party, threes have an eye for what is stylish and “in.” Sociable and friendly, they are bright and breezy, adding color and vigor to the world.

Tarot Key 3: The Empress

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the Empress. Great with child, she wields her scepter amidst the lush bounty of a garden. The matriarch, she symbolizes nature's powers of creation. Her domain includes fertility, productivity, creative talent, love, pleasure, happiness and luck.

Your Karmic Lessons

Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.

The number 3 is missing in your name.

With a 3 Karma number, you may lack self-confidence and have problems expressing yourself. Contact with the public can help you to overcome your inhibitions.

The number 8 is missing in your name.

With an 8 Karma number, you are ambitious, but your judgment may not always be the best. You must learn the value of money, and find out how to use power responsibly.

Your Subconscious Response

Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.

Your Subconscious Response number is 7.

When the going gets rough, you tend to become very analytical and may seem detached and unemotional. You are likely to suffer in silence. During these times you do best when you pray or meditate. Your tendency not to get personally involved may be appropriate in some situations, but not when other people are in great need.

Your Youth, Maturity and Later Years

So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.

Your First Life Cycle starts at birth and lasts until age 28.

Its number is 9.

This is a high vibration for a young person to bear. This is because 9 is not conducive to a sense of security, and because selflessness may be expected of you at a time in your development when it is natural to be selfish. There may be change and instability for you to cope with, and the air may be charged with emotional tensions that you are too young to understand. Your own needs as a child may be neglected, so that you do not know what to do with your own intense feelings. Some form of artistic expression can be a great help in sorting these feelings out, and a good education can provide some structure and resources to deal with life. Toward the end of this cycle you will most likely have gained enough maturity to feel more comfortable with the intense energies of a 9.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

Your Second Life Cycle starts at age 28 and lasts until age 55.

Its number is 9.

Your middle period will be charged with strong emotional vibrations, and during it you may have many changes in your life. This is a time to learn to live with your emotions, and possibly to find an outlet in the arts. Personal relationships often do not fare well in this cycle. Instead, this is the time to be selfless, to cultivate your spiritual life and a broader love for, and service to, humanity. It is good to concentrate on finishing projects during this time, to prepare the way for new starts.

During this Life Cycle or the next, your Power number generally begins to manifest.

Your Third Life Cycle starts at age 55 and lasts until death.

Its number is 9.

In later years you can expect many changes in your life situation, and much will be discarded. It's a high-powered last cycle, so learn to pace yourself. Helping others, and cultivating compassion and tolerance, are the best paths to achieving your own happiness. This is a good time to retire, study and learn. You can also further your creative expression by associating with sensitive and artistic friends.

Major Decision or Turning Points in Your Life

Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.

Your First Turning Point starts at birth and lasts until age 34.

Its number is 9.

This youthful Turning Point may face you with change or loss at an early age. For a young person it may be especially difficult to deal with the intense emotions involved, and to love and give even though there may be no return. Nevertheless, during a 9 vibration this is where happiness lies. The more you rise to this challenge, the more beautiful life will seem to you. If you work for the good of others, you may be able to achieve money and success quite early in life.

Your Second Turning Point starts at age 35 and lasts until age 44.

Its number is 9.

In the next nine years of your life you will be called to seek out ways serving the world and your fellow human beings. This could be brought on by personal losses that stimulate you to seek higher forms of happiness than mere ego gratification. This is an ideal time to develop compassion and to learn to sustain yourself with an appreciation of all the beauty in your life.

Your Third Turning Point starts at age 45 and lasts until age 54.

Its number is 9.

This 9 vibration in the prime of your life can lead you into situations of high emotion and possibly loss. You have the choice of how to react. If you play the victim, you regress and create unhappiness. If you take the long view of loss and are able to accept its necessity and absorb its message, you will realize that you have the power to create your own happiness and life will take on a luminous kind of beauty.

Your Fourth Turning Point starts at age 55 and lasts until death.

Its number is 9.

In the last period of your life, a 9 vibration calls you to be selfless, impersonal and universal in your outlook. If you cling to anything in a period when change, endings and loss are real possibilities, you will only create misery for yourself and you will fail to garner the wisdom that is offered to you now. Whatever life brings, you must study it for the lessons that it offers. When you learn the lesson, suffering is no longer necessary. If you maintain your universal outlook, money and success are a real possibility, but your greatest rewards are in learning compassion and seeing the true beauty that is all around you.

The Challenges You Will Meet

Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.

Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped. Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.

Your First Minor Challenge number is 0.

The Challenge number zero presents no particular challenge, but this does not mean that you should rest on your laurels. It just gives you a choice of what to work on. During your youth you may be tempted to coast through life, but if you choose instead to work on any problems in your character, you can become truly great. It's possible that you might need some practice in making choices and then acting upon them. Generally, however, you are evolved enough to be conscious of whatever shortcomings you have, and to deal with them one at a time. Becoming the kind of person you know you could be is the most difficult of challenges, but you are capable of meeting it.

Your Second Minor Challenge number is 0.

The Second Minor Challenge is about aspects of your character that you need to work on during your Second Life Cycle, from about ages 35 to 62. A zero Challenge number presents no particular challenge. This can mean either that life is easy because you have no large obstacles in your path, or that it is difficult because everything is an obstacle and you don't know which to tackle first. If the latter is true, it is best just to pick one difficulty arbitrarily and work on that until you have mastered it. Your plate is either very full or very empty because you are an old soul. You are evolved enough to be conscious of whatever shortcomings you have, and to deal with them one at a time. Becoming the kind of person you know you could be is the most difficult of challenges, but you are capable of meeting it.

Your Major Challenge number is 0.

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. A zero Challenge number presents no particular challenge, and so it gives you a choice of what to work on. You may be tempted to coast through life, but if you choose instead to work on any problems in your character, you can become truly great. You are evolved enough to be conscious of whatever shortcomings you have, and to deal with them one at a time. Becoming the kind of person you know you could be is the most difficult of challenges, but you are eminently capable of meeting it.

Your Best Activities for the Year

Your Personal Year number combines your birth month and day with the current year. Personal Year numbers go in a recurring nine-year cycle of development. Each time you go around the cycle you have a chance to do things with added wisdom and skill. Keeping your activities in tune with your current year vibration can make your existence more harmonious and keep your unfoldment upon its intended track.

Some numerologists believe that the new personal year number begins on January 1st of the new year. Others believe that it doesn't change until your birthday on that year, so that up until your birthday you would be using the personal year number for the preceding calendar year.

Your Personal Year number beginning on Jan. 1, 2002 is 22/4

A 22 Personal Year is a rare occurrence that provides exceptional opportunity for building something lasting that will benefit humanity. To respond to this higher vibration, you must leave personal concerns behind. If you fail to do this, it will simply be another 4 year of hard work and heavy responsibility. If you use this year to serve others, however, limitations will fall away and you will have the opportunity to realize the highest aspirations of your life. You may find yourself in a position of leadership. Use it well. Be honest and practical, and you will be able to create something of enduring value for the world at large.

At at least some points during such a year, most people will find themselves falling back into the 4 vibration that underlies 22. If your grander projects don't seem to be getting off the ground, it is time to slow down, turn inward, and get down to the hard work that is needed to make your dream a reality. The first step is to get rid of the dead wood and focus on what is truly effective. Get your affairs in order and keep them that way. Have a physical checkup, and do whatever is needed in the way of diet, exercise, and good health habits to get your body in tune. In all areas, get your tools in order, and cultivate the habit of practicality in order to build a solid foundation. Work out the details and follow through. This is a year when any solid work that you put in can yield extraordinary results.

Your Personal Year number beginning on Jan. 1, 2003 is 23/5

A 5 Personal Year is a time to lift your nose from the grindstone and go adventuring. If you've been diligent in your 4 year, it's now time to break away from your routine and refresh yourself. Try meeting new people, going to new places, involving yourself in new situations, and participating in a wide variety of activities. Opportunity won't necessarily come knocking at your door, so put yourself out there and see what comes your way. The excitement level is high, and the energy is there for the untried and the unusual. Like the 1 Personal Year, this is a pivotal time for shifts, twists and turns, so prepare yourself for the unexpected. The keyword for this year is Change. If you bounce along with the tide and remember to keep circulating, this should be a year of progress.

Where Do We Go from Here?

If this report has aroused your curiosity and you want to learn more, you may find that exploring your numbers with a deck of Tarot cards is an excellent means for further self-reflection.

Suppose that your birth date were August 19, 1962. The Tarot trump that you would look at for the month would be 8 (Strength, or in some decks, Justice). For the day, you would look at 19 (the Sun), $1+9=10$ (the Wheel of Fortune), and, reducing it even further, $1+0=1$ (the Magician). For the year, you would look at $1+9+6+2=18$ (the Moon), and possibly also $1+8=9$ (the Hermit).

These cards would have something to say about you and how you express these traits as you follow your destiny. Our example birth date would have the Sun in Leo, and trump 19, the Sun, would reinforce the Leo symbolism. You could see that the person is a hard worker (8) with a sunny disposition (19) who is aware of the changes in fortune that life can bring (10). Extremely creative (1), he is also a sensitive, caring person who is tuned in to other people's feelings (18).

It is instructive to buy a Tarot deck, put one of your cards up for a few days, and mull over the symbolism. Remember that there are no truly negative numbers or cards. All participate in the experiences of the soul as it passes through life.

Even trump 15, the Devil, has its place. Everyone has traits that create stumbling blocks or weaknesses. When we work to overcome these we achieve maturity and become more sympathetic to the weaknesses that we see in others. This may be an important focus for a soul with the number 15 prominent.

Also, trump 13, the so-called Death card, is often misunderstood. Remember that in the cycle of seasons the leaves fall and winter comes, but this death is only the precursor of the life that bursts forth in the spring. Life is not all white light and bubbles. There are dark clouds of pain and frustration as well. It's all part of the cycle.

Whatever you find your numbers to be, remember that nobody has it all down pat. We all have plenty to learn. We do have a choice, however. We can, if we wish, fight against our destiny or try to ignore it. Or we can, as the great psychoanalyst C.G. Jung put it, "do willingly what we must do by necessity." Viewing ourselves through the lens of studies such as numerology, the Tarot and astrology, we gain a clearer picture of what our own necessity is, and can then travel more consciously on our life's intended path.
