## Your Planetary Day

While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.

### *You were born on a Tuesday.*

In English, Tuesday is named for Tiu, a Norse god who, like his Romance-language counterpart Mars, is associated with war and athletics. Astrologically, Mars, rules red, iron, blood, and the animal kingdom. In the Kabbalah, Mars is associated with Samael, angel of destruction, who clears the way for new creation. The sin of Mars is wrath and destructiveness, but his virtues are courage, activity, frankness and fairness. Keeping order and proportion in human affairs, fighting for justice, and defending the weak are among the highest uses of Mars energy. “Tuesday’s child is full of grace.” — *Harper’s Weekly*, 1887.

## About Personal Numerology

The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.

As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all-important work on ourselves.

In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If what we were wasn’t acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a “turn-type.”

For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.

Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people’s expectations of us.

Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.

**How Numerology Works.** Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.

To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.

To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.

Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.

This said, let us now look first at your basic character and the major themes in your life.

## **Your Life Path**

The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.

### ***Your birthdate total is 1.***

With a Life Path of 1, you have a destiny to stand on your own, to believe in yourself, your own ideas and your own potential. Yours will be the life of the leader and the pioneer. Being a unique individual, you can follow your own path and live free from many of the rules that govern others. You may, however, have to fight to live the way you want and to accomplish what you want to do. Nevertheless, you must not conform or give up your goals.

### **What Motivates You in Life**

We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Variously known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.

*The vowel total in your name is 5.*

With 5 as a Motivation number, you desire personal freedom and the chance to do new things. Bored with routines and situations that are stagnant, you especially welcome travel because of the stimulating changes of scenery and situations that it brings. You plunge headlong into life, and prefer your experience to be on the physical rather than the intellectual plane. Adventurous, sensual, and hungry for stimulus, you may find yourself strongly attracted to sex, food, alcohol or drugs.

Colors and gems have number vibrations, too. Your Motivation colors are the pastel shades of blue, and your Motivation gem is the turquoise. Wear these when you want to relax and restore your energies.

### **More about Your Emotions and Motivations**

The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.

*The first vowel in your name is E.*

"E" feels changeable and restless, and gives you a love of freedom and excitement. You tend to be on the move, always on the lookout for the next interesting event. For you, variety is truly the spice of life. You are mentally stimulating and stimulated mentally by all that passes before you. Preferring to remain unfettered and free to explore new horizons, you find it difficult to take root. A "people" person, you are outgoing and have many friends who enjoy your optimism and good humor. You also work well with your hands and are very versatile.

### **The Impression You Give to Others**

The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.

***Your consonant total is 4.***

Having the Impression number 4, you dream of being a strong, down-to-earth sort of person who is the most necessary part of the lives of your family and friends. You see yourself as a dependable soul who can always be counted upon to do what is required. You have planned for everything that could go wrong, and are well prepared for the future. You use your past experience to your advantage, and can handle any obstacle that threatens your domain.

Your Impression color is green and your Impression gem is the emerald. Wear these when you want to be sociable and enjoy the company of others.

## **The Way You Express Yourself**

The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.

***Your name total is 9.***

The Expression number 9 makes you tend to be a universe-oriented person who is by nature compassionate and understanding. You are a true humanitarian who also has the potential for high artistic achievement. A romantic at heart, you have emotions that swing from high to low. You could help humanity, and a job utilizing your aesthetic sense and sympathetic nature would suit you. Just do not drain yourself emotionally by becoming involved in too many things at once.

Your Expression colors are any and all colors in the brightest hues. Your Expression gem is the opal. Try wearing these when you need to be businesslike.

## **Careers Offering the Best Self-Expression**

With 9 as your Expression number, consider these kinds of jobs:

**The Boss:** director of a charity organization, publisher, resort owner, judge, circulation manager.

**On Stage:** entertainer, actor, musician, teacher, philanthropist, clergyman, religious leader, reformer, politician, seller of decorative items, lecturer, promoter, receptionist.

**Service:** doctor, social worker, healer, lawyer, broker, advisor or counselor, reporter, engineer, beautician, navigator, freight dispatcher, mail clerk, policeman, fireman, parole officer, ranger.

**Just You:** composer, writer, illustrator, decorator, sculptor, author, humorist, engraver, astronomer, chemist, pilot.

**Best Bet:** any job that has humanitarian aims.

## **The Power You Can Achieve in Maturity**

The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.

This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.

Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.

What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.

### ***The total of your name and birthdate is 1.***

A Power number of 1 signifies that you need to live your life with originality and courage. This is the number of the loner, not because these types don't like people but because others tend to slow them down. Reluctant to arrest their pace long enough to teach and encourage others, ones tend to lead by example. People with 1 as a Power number must have the freedom to move and act alone without having to confer with others before doing so. They need to define themselves as unique individuals in their own right, breaking new ground as they find their own way.

The number 1 is the archetype of the Hero. Ones need to challenge and be challenged, and so they attract situations that demand assertiveness and bravery. Ideally this involves defending the weak and fighting for what is right. Ones have little trouble facing off against someone who has offended them. They can be much maligned or envied for their daring, dash, and desire for face-to-face confrontation. That, however, is the imperative of 1 as a Power number.

### ***Tarot Key 1: The Magician***

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the Magician. A man of action, he wields his wand to bring down power from above, and he uses the tools on the table before him to create what he needs in the world. Above his head is the infinity symbol, signifying that he is channeling a power that is limitless and divine. The Magician represents the power to create your own life.

### **Your Karmic Lessons**

Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.

#### ***The number 7 is missing in your name.***

With a Karma number of 7, it's possible that you have many fears and anxieties. You will find that the path out of your worry is to develop your intellect and spirituality.

#### ***The number 8 is missing in your name.***

With an 8 Karma number, you are ambitious, but your judgment may not always be the best. You must learn the value of money, and find out how to use power responsibly.

### **Your Subconscious Response**

Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.

***Your Subconscious Response number is 7.***

When the going gets rough, you tend to become very analytical and may seem detached and unemotional. You are likely to suffer in silence. During these times you do best when you pray or meditate. Your tendency not to get personally involved may be appropriate in some situations, but not when other people are in great need.

## **Your Youth, Maturity and Later Years**

So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.

***Your First Life Cycle starts at birth and lasts until age 27.  
Its number is 3.***

During a youth bent on expressing yourself at any cost, you have a tendency to go to extremes. A fun-loving chatterbox, you can be quite a handful unless you have the chance to get out and be with people as much as possible. While formal schooling may make you restless, you will probably thrive when you channel your exuberant energy into the areas of art, drama, music or other forms of self-expression.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

***Your Second Life Cycle starts at age 27 and lasts until age 54.  
Its number is 3.***

This middle period of your life is a time for love, friendship, beauty and creativity. It will be happiest revolving around social contacts and your own self-realization and expression through art, music or words. You are also able to sell anything during this time, and would do well to find work that brings you in contact with the public.

During this Life Cycle or the next, your Power number generally begins to manifest.

***Your Third Life Cycle starts at age 54 and lasts until death.  
Its number is 22/4.***

A 22 vibration is a powerhouse to have as a last cycle, and it means that you must stay in the driver's seat. Don't accept any limitations on yourself, either self-imposed or from others. Think big, and put yourself into a position where you control a lot of the action. Though many people your age will want to sit back and reflect, you may be engaged in a steady effort to realize your highest potential.

You may instead opt to live out this cycle (at least sometimes) on a less demanding 4 vibration. Since a 4 cycle brings practical activity and ongoing discipline, you may look forward always to being busy and productive in your later years. At this time of your life, such a cycle works best if you have either found a job that means fulfillment rather than "work," or you have planned a financial freedom that allows you to work for fun.

## **Major Decision or Turning Points in Your Life**

Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.

***Your First Turning Point starts at birth and lasts until age 34.  
Its number is 6.***

This youthful Turning Point may call you to take on heavy domestic responsibilities at an early age, such that you feel denied a carefree childhood. If you shoulder these responsibilities with good grace, your reward may be love, security, protection, loyalty and sympathy, both given and received. This Turning Point may also take the form of an early marriage that comes when you are still really too young to settle down.

***Your Second Turning Point starts at age 35 and lasts until age 44.  
Its number is 7.***

The next nine years of your life will test your ability to go inward, meditate and study. Now is your chance to develop a philosophy that sustains you through the rest of your life. Ensure that you get enough intellectual stimulation, and that you learn how to analyze and evaluate.

***Your Third Turning Point starts at age 45 and lasts until age 54.  
Its number is 4.***

This 4 vibration in the prime of your life gives you the chance to be maximally productive. If you use it well, you will be building a solid and secure foundation for your older years. You may have heavy responsibilities at this time, but if you shoulder them with good grace you will immediately reap rewards in terms of satisfaction and the recognition of your power to get things done.

***Your Fourth Turning Point starts at age 55 and lasts until death.  
Its number is 7.***

The last period of your life is a natural time to draw back from the world as the 7 vibration demands. It is a time to go inward, assimilate all that has gone before, and renew your acquaintance with a higher power. Just make sure that you do not turn inward to excess. At a time in life when friends drop away, you need to spend some time cultivating the acquaintances and dear ones that you still have. This is not a great time for partnerships, but it is a wonderful time for going back to school and making acquaintances who share your mental interests.

## **The Challenges You Will Meet**

Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.

Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped. Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.

### ***Your First Minor Challenge number is 0.***

The Challenge number zero presents no particular challenge, but this does not mean that you should rest on your laurels. It just gives you a choice of what to work on. During your youth you may be tempted to coast through life, but if you choose instead to work on any problems in your character, you can become truly great. It's possible that you might need some practice in making choices and then acting upon them. Generally, however, you are evolved enough to be conscious of whatever shortcomings you have, and to deal with them one at a time. Becoming the kind of person you know you could be is the most difficult of challenges, but you are capable of meeting it.

### ***Your Second Minor Challenge number is 1.***

When the number 1 is your Second Minor Challenge, you will probably need to do most of your work on this area in mid-life, during your Second Life Cycle from about ages 35 to 62. This is a time to work on your will power and on asserting yourself as an individual. It is a time to overcome dependency and stand on your own feet so that you don't believe you need to please others in order to survive. Pick a goal, and in working toward it you will realize your own powers. Then you will have earned the respect of others and yourself.

### ***Your Major Challenge number is 1.***

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. With a Challenge number of 1, you must fight to overcome a sense of being held down by those with stronger wills. To meet this challenge, you must learn to assert your independence and discover your own individuality, while at the same time respecting the rights of others.

## **Your Best Activities for the Year**

Your Personal Year number combines your birth month and day with the current year. Personal Year numbers go in a recurring nine-year cycle of development. Each time you go around the cycle you have a chance to do things with added wisdom and skill. Keeping your activities in tune with your current year vibration can make your existence more harmonious and keep your unfoldment upon its intended track.

Some numerologists believe that the new personal year number begins on January 1st of the new year. Others believe that it doesn't change until your birthday on that year, so that up until your birthday you would be using the personal year number for the preceding calendar year.

### ***Your Personal Year number beginning on Jan. 1, 2004 is 12/3***

A 3 Personal Year is a time to enjoy the good things that are born out of the self-assertion of the first year in the cycle and the pairing-off and gentle accommodations of the second year. When you plant your seeds well in the 1 Personal Year, your 3 Personal Year is indeed a lucky one, full of potential for growth and advancement. If you put yourself forward, you will be popular and will find those who will help you express yourself and further your ideas. So open up and spread the word. It is no time to hide your light under a bushel. Get around, be seen and identified, socialize and network. This is a light-hearted year, a time for exuberant self-expression, a year of fun and rewards in which you can restore your vital energies, explore your creativity, and widen your social contacts before the hard work that lies ahead. The keyword for this year is Enjoy.

### ***Your Personal Year number beginning on Jan. 1, 2005 is 13/4***

In this 4 Personal Year it is time to slow down, turn inward, and get down to the hard work that is needed to make your dream a reality. The first step is to get rid of the dead wood and focus on what is truly effective. It is time to put your affairs in order and keep them that way. Have a physical checkup, and do whatever is needed in the way of diet, exercise, and good health habits to get your body in tune. In all areas, get your tools in order, and cultivate the habit of practicality in order to build a solid foundation for future years. Work out the details and follow through. This is no time to kick back, so roll up your sleeves and dig in. If you let yourself flow with the tide of this year, you will eventually find yourself feeling a deep kind of satisfaction as your efforts produce tangible results. As you clean out your closets and tidy your desk, you will feel a new kind of serenity as your life becomes more calm, orderly and in-control. The word to remember this year is Concretize.

## Where Do We Go from Here?

If this report has aroused your curiosity and you want to learn more, you may find that exploring your numbers with a deck of Tarot cards is an excellent means for further self- reflection.

Suppose that your birth date were August 19, 1962. The Tarot trump that you would look at for the month would be 8 (Strength, or in some decks, Justice). For the day, you would look at 19 (the Sun),  $1+9=10$  (the Wheel of Fortune), and, reducing it even further,  $1+0=1$  (the Magician). For the year, you would look at  $1+9+6+2=18$  (the Moon), and possibly also  $1+8=9$  (the Hermit).

These cards would have something to say about you and how you express these traits as you follow your destiny. Our example birth date would have the Sun in Leo, and trump 19, the Sun, would reinforce the Leo symbolism. You could see that the person is a hard worker (8) with a sunny disposition (19) who is aware of the changes in fortune that life can bring (10). Extremely creative (1), he is also a sensitive, caring person who is tuned in to other people's feelings (18).

It is instructive to buy a Tarot deck, put one of your cards up for a few days, and mull over the symbolism. Remember that there are no truly negative numbers or cards. All participate in the experiences of the soul as it passes through life.

Even trump 15, the Devil, has its place. Everyone has traits that create stumbling blocks or weaknesses. When we work to overcome these we achieve maturity and become more sympathetic to the weaknesses that we see in others. This may be an important focus for a soul with the number 15 prominent.

Also, trump 13, the so-called Death card, is often misunderstood. Remember that in the cycle of seasons the leaves fall and winter comes, but this death is only the precursor of the life that bursts forth in the spring. Life is not all white light and bubbles. There are dark clouds of pain and frustration as well. It's all part of the cycle.

Whatever you find your numbers to be, remember that nobody has it all down pat. We all have plenty to learn. We do have a choice, however. We can, if we wish, fight against our destiny or try to ignore it. Or we can, as the great psychoanalyst C.G. Jung put it, "do willingly what we must do by necessity." Viewing ourselves through the lens of studies such as numerology, the Tarot and astrology, we gain a clearer picture of what our own necessity is, and can then travel more consciously on our life's intended path.
